ART	1103	60256	3		<u>Drawing I: Honors</u>		Christofides	TR 0900-1150	This course combines studio and seminar components to teach drawing skills as a vehicle for heightened understanding of the physical world. Students will learn foundational techniques of observational drawing and will explore drawing's historical role in both scientific and humanities disciplines. Learning how to draw observationally is about paying close attention to one's surroundings, and the process of drawing can be both meditative and analytical. Through hands-on art projects, lectures, readings, field trips and group discussions, students will develop their own artistic voice and learn to use drawing as a vehicle for contemplation and innovation. Students will be encouraged to make interdisciplinary connections, and explore complex conceptual questions throughout the drawing process. No previous drawing experience required.	Course Type - In Person This Course can be used to meet the Honors Seminar Requirement

BIOL	3890	64268	1		<i>Physiology: Honors</i>	STEM	Minghetti	M 1530-1620	Controversies in Physiology - We will use a seminar format to explore areas of controversy within physiology and physiology-related sciences. Selected topics will be in-depth explorations of material that is (usually) briefly touched upon in class, giving you the opportunity to advance your understanding of physiology beyond what we have time to consider in the main course. As the seminar title indicates, our topics will be those for which there is some controversy, e.g., because the science is emerging or very complex, because ethical questions arise as a result of the science, and/or because segments of society have difficulty accepting the science. Course meetings will be a combination of professor-led and student-led discussions over topics for which the materials have been given to everyone for review ahead of time in order to come to the class prepared. ENGL	2413	60765	3	DH	Exploring Literature: Honors (DH)	Humanities	Carter	TR 0900-1015	Stories permeate the world around us and form an essential part of the human experience. They allow us to live through other eras, travel to distant lands, and see through the eyes of characters whose lives are very different from our own. This discussion-based course supplements traditional literary forms - such as short stories, poems, and plays - with song lyrics and graphic novels, and encourages students to consider texts creatively as they interpret their meanings in a safe environment. Learn to appreciate diversity by examining the world around you through the complex, interconnected lenses of literature!	Course Type - In Person
ENGL	2413	60766	3	DH	Exploring Literature: Honors (DH)	Humanities	Rogers	TR 1200-1315	Authors often set their stories in the Middle Ages, in order to show us something about our own culture. These compelling "medievalisms" use the seemingly far-away and exotic in order to reveal modern constructs of identity (race, class, gender, etc.) In this class, we will read from a wide range of literature—from the actual medieval through the various historical modes of medievalisms in fiction, poetry, and drama. Our class discussions and writing will interrogate how the medieval constructions of love, heroism, and the battle of the sexes become modes in modern literature that allow us to bolster, question, and challenge the world around us and form an essential part of the human experience. They allow us to live through other eras, travel to distant lands, and see through the eyes of characters whose lives are very different from our own. This discussion-based course supplements traditional literary forms - such as short stories, poems, and plays - with song lyrics and graphic novels, and encourages students to consider texts creatively as they interpret their meanings in a safe environment. ENGL	2890	69225	1		Mythology and Folklore in Graphic Novels: Honors	Humanities	Morse	R 0900-0950	Many have argued that superhero stories are our modern myths. But what about the plots, characters, and interactions these stories import from older mythological and folkloric traditions? This course will examine the disparate-and often overlapping-uses of mythology and folklore from around the world in popular comics released by mainstream publishers such as Marvel and DC; critically acclaimed series by writers such as Neil Gaiman, Mike Mignola, and Natasha Alterici; and excerpts from graphic novels that take inspiration from Greek, Norse, Irish, Russian, African, Egyptian, Chinese, Japanese, and Pacific Island lore. Students will think and write critically about contemporary depictions of traditional characters, create their own storyline using elements adapted from myths and/or folktales, and submit papers that explain the choices involved in their own mythmaking process.	Course Type - In Person
ENGL	2890	69226	1		Stuff OSU Should Know: Podcasting OSU History and Culture: Honors	Humanities	Wood	W 1030-1120	In this course students will contribute to the design, production, and distribution of a podcast that offers a students' perspective on the past, present, and future of Oklahoma State University. In past iterations of this course research topics have ranged from historical inquiries into Oklahoma A&M / OSU during times of war and the economic foundations of the University in the Land Grant System to more topical matters like construction on campus, Greek Life at OSU, and Homecoming, but students will choose their own desired topics of research and podcasting based on in-class group brainstorming sessions. The semester will commence with a collaborative campaign to review and market the existing episodes of Stuff OSU Should Know and an individual project for which you must follow a podcast and write a review of it with an audience of your peers in mind. In the second half of the semester you will work alone or in a group to create new content for Stuff OSU Should Know. Podcast contributions can take the form of composing and reading podcast scripts, or audio editing, visual design, marketing, and other sorts of labor that don't involve listening to your own recorded voice. For instance, one student's workload involved making various visualizations of the podcast's contents, based on discussions we had in class about representation and accessibility. Whatever the reach of the podcast episodes themselves, the creation of them provides students with a novel opportunity to refine their abilities to perform scholarly research, to conduct interviews, to articulate scripted and improvised discourse, market materials online and in physical spaces through visual media, and to converse and collaborate productively with their peers. HIST	3980	69321	3		Honors: Power and Protest in US History	Humanities	Karibo	TR 1500-1615	There has been a renewed public debate over the role of political protest in society. Americans have grappled with difficult and important questions, such as: who has the right to protest and how? What does it mean to express dissent? How can we—both individually and collectively—mobilize to make political change in effective ways? In fact, these debates are not new in the U.S., but instead are deeply rooted in the American political tradition. This course traces the history of social movements from the late-19th century to the present. We will focus on two case studies, including the 'long Civil Rights Movement' and the battle for gender equality, examining the historical context that gave rise to these movements; the tactics that emerged within various factions of the movements; the philosophical debates they raised; and the response and reactions to them in the media, by the public, and by those in power. HIST	3980	70623	3		Honors: Religion and Mythology	Humanities	Nash	TR 1200-1315	This course, specifically designed for honors students, uses myths from Mesopotamia, Egypt and Canaan from the third to the first millennia B.C. as a starting point for considering the fundamentals of ancient polytheistic religions in these regions. This course places religion and myth within a historical context. We will also read some prayers, letters to gods and treaties to see how religion permeated ancient life. The course is writing intensive; students must have passed Comp 1 to enroll.	Course Type - In Person This Course can be used to meet the Honors Seminar Requirement
HONR	1010	70580	3		They Wouldn't Put It on the Internet if It's Not True: Info. Literacy in Post-Truth Era	Social Sciences	Reiter	TR 1500-1615	This course provides an overview of essential concepts and skills needed for success in navigating an increasingly uncertain and perilous information landscape. Awareness of, access to, and quality of information have demonstrable impacts on social, economic, academic, and political well-being. This course will address issues of access, use, creation, and dissemination of information and how it affects particular populations of people, with an emphasis on historically marginalized and underrepresented groups. Students will learn to locate, access, use, evaluate, organize, create, and present information effectively for personal and academic research needs. Students will examine biases within each of those paying particular attention to issues of race, gender, class, sexuality, ethnicity, and other personal, political, and socioeconomic factors. Students will also improve their understanding of authority and trust, value of information, the nature of scholarly conversation, and the nature of inquiry and exploration. HONR	1010	70581	1		Practical Law for the Modern Citizen: Honors	Social Sciences	Holmes	T 0900-0950	The goal of this course is to give students an overview of the law. This is relevant for all citizens. It applies to social, legal, and career aspects of their lives. Finally, students will emerge from this class confident in their abilities, knowing that they have a better basis for meeting any challenge life or the law presents them. This survey will review excerpts from important ancient and historical texts which provided a basis for the foundation of American Law. In particular, there will be a focus on the Declaration of Independence, the Constitution, and the Bill of Rights. Furthermore, students will read representative examples of some of the most important speeches and legal arguments in American history. HONR	1010	70582	2		Eloquent Persuasion for the 21st Century: Honors	Social Sciences	Holmes	TR 1030-1120	This course is designed to teach students of the Post-Internet Age how to communicate through oral presentation and speeches, to counter what is becoming the lost art of verbal communication. From the most informal and commonplace situations, to the most formal platforms on the national and international scale, this will give them a familiarity with the world's most significant speeches which shaped modern civilization. Reading those words will also bring historical figures to life. Building on that foundation, they will then prepare, write, and practice speaking in class. This will give them the confidence that only experience and detailed critiques will provide. It will show the power of precise writing, as Abraham Lincoln's Gettysburg Address, for example, demonstrated in only 272 words. All students will eventually give a prepared speech at some time in their lives, making this an invaluable tool.	Course Type - In Person This Course can be used to meet the Honors Seminar Requirement
HONR	1010	70583	2		Jury of 12: Past and Present: Honors	Social Sciences	Holmes	TR 1330-1420	This class will study the U.S. Constitutional basis for jury trials at the state and federal level. Students will learn the legal process of jury duty and selection, which begins at age 18. There will be a mandatory field trip in the beginning of the semester to the Payne County Courthouse in Stillwater. Presentations by a District Judge, the Court Clerk's Office, Sheriff's Office, District Attorney's Office, and a Defense Attorney will include their general duties, as well as specific information on the responsibilities, and what to expect, in jury duty—from selection to the end of a trial. During the semester, 12 of the most famous jury trials in American history will be studied. These will become the basis for a mock jury trial. Legal arguments based on the facts of the original cases, with students taking an active role in a simulated courtroom setting. They will then deliberate on a verdict, similar to a real case. A significant number of students serve on juries in Payne County, and this is useful preparation for an important duty that may be used now. She was eventually acquitted, but her story had captured the American cultural imagination. This course will take a chronological approach to the history of the Lizzie Borden story as it evolved from news reports contemporaneous to the case through broadsides and early true-crime takes to fictionalized versions in the form of short stories, plays, poems, a ballet, and a few films—among other genres. We will consider how changing concepts of gender shape the way in which the story gets told in different media and in different moments in American history. Ultimately, we will ask what it says about American culture that—for better or for worse—we just cannot let Lizzie go. MATH	2890	69516	1		Contract Bridge I: Honors	STEM	Mantini	M 1600-1715	In this course we will learn the basics of playing the game Contract Bridge, one of the most interesting and difficult games of strategy in the world. Students will learn the rules of the two phases of the game: the auction, or the bidding phase, and then the play of the cards. Students will learn to analyze card positions and think strategically. This involves mental counting of cards that have been played, and drawing inferences from the bidding and play of what cards opponents are likely to hold. We will touch on permutations and combinations, as they help us determine the number of options for ways the cards can be distributed, and then use basic probability to determine the most likely outcomes. The game also has social and information-theoretic aspects, requiring respectful and accurate communication with fellow players using the abstract language of bidding. There may be a follow-up course, Contract Bridge II, in the spring if there is sufficient interest.	Course Type - This is an Honors Add-on Course you MUST also take Math 2144+
